INDEX TO Vol. IV (A).

AUTHORS' INDEX.

Acharya, B. N., Patel, A. M., and Desai, B. N.	Conductivity and cataphoretic speed measurements of benzopurpurin 4B, Congo red and sky blue F.F., 503.
Anand, Balmokand ..	Raman effect in dibasic acids in crystalline state, 603.
Ananthakrishnan, R. ..	The Raman spectra of some boron compounds (methyl borate, ethyl borate, boron tri-bromide and boric acid), 74. The Raman spectra of cyclo-propane and ethylene oxide, 82. The Raman spectra of tri-methyl-amine and some compounds of hydroxylamine and hydrazine, 204.
Barve, P. M.	*See* Joshi and others. *See* Khanolkar and others. *See* Mankodi and others.
Born, Max, and Nath, N. S. Nagendra	The neutrino theory of light—II, 611.
Bountra, R. K., and Pandya, K. C.	The acid content of some of our vegetable food-stuffs—Part II. Amchur or *Mangifera indica*, 452.
Chiplonkar, V. T.	The relative efficiencies of the multistage and one stage process in the electrolytic preparation of heavy water, 463.
Chowla, I.	On sums of powers, 170. The number of solutions of a congruence in two variables, 654.
Chowla, S.	Note on Waring's problem, 173. Pillai's exact formulæ for the number $g(n)$ in Waring's problem, 261. On a relation between two conjectures of the theory of numbers, 652.
Desai, B. N.	*See* Acharya and others. *See* Joshi and others. *See* Khanolkar and others. *See* Mankodi and others.
Doss, K. S. Gururaja ..	Collision frequency in solutions, 23. Ageing of surfaces of solutions—II. Activated accumulation of solute molecules, 97.
Doss, K. S. Gururaja, and Rao, B. Sanjiva	Ageing of surfaces of solutions—I. The study of variation of surface tension of solutions with time by the ring method, 11.
Gora, E.	On Fermi's theory of β-decay, 551.

Gulatee, B. L. .. .. On the variation of latitude at Dehra Dūn, 383.

Gupta, Hansraj .. .. Decompositions into cubes of primes (II), 216.
On sums of powers, 571.
On a conjecture of Ramanujan, 625.

Gupte, R. D. .. .. Distribution of temperature and vapour pressure in the neighbourhood of a water-surface, 275.

Iyer, V. Ganapathy .. On the maximum-modulus curves of holomorphic functions, 314.

Jogarao, Ch. V. .. .. An optical investigation of some Indian oils—I. Depolarisation of the scattered light, 327;
II. Raman effect, 459;
III. Intensity of the scattered light, 621.

Joshi, C. B., Barve, P. M., and Desai, B. N. Importance of dialysis in the study of colloids—Part IV. Colloidal arsenious sulphide, 590.

Kanga, D. D. .. .. *See* Saiyed and Kanga.

Khanolkar, R. R., Barve, P. M., and Desai, B. N. Condition of sparingly soluble substances in gels—Part I. Silver chromate in gelatine, 468.

Krishnan, R. S. .. .. X-ray diffraction and electrolytic dissociation—I. Sulphuric acid and sulphates, 661.

Luthra, Hans Raj, and Vaidhianathan, V. I. Uplift pressures under weirs with three sheet piles, 491.

Mankodi, G. F., Barve, P. M., and Desai, B. N. Importance of dialysis in the study of colloids—Part III. Colloidal Prussian blue, 480.

Nabar, M. V., and Wheeler, T. S. The kinetics of heterogeneous organic reactions (II): The reaction between benzyl chloride and solid silver nitrate in the presence of inert diluents, 91.

Nath, N. S. Nagendra .. The diffraction of light by high frequency sound waves: Generalised theory. The asymmetry of the diffraction phenomena at oblique incidence, 222.
The visibility of ultrasonic waves and its periodic variations, 262.
See Born and Nath.

Neelakantam, K., and Seshadri, T. R. Pigments of cotton flowers—Part III. Karunganni (*Gossypium indicum*), 54.

Nilakantan, P. .. .. The magnetic anisotropy of rhombic sulphur, 419.
Magnetic anisotropy of naturally occurring substances—II. Molluscan shells, 542.

Niyogy, S. .. .. Organo-metalloid compounds, I, II, 303, 309.

Oke, B. Y. .. .. Lattice-theory of alkaline earth carbonates—Part I. Lattice-energy of crystals of aragonite type and their thermo-chemical applications, 1;
Part II. Elasticity-constants of aragonite, 514;
Part III. Lattice-energy of the crystals of calcite and its thermo-chemical applications, 525;
Part IV. Elasticity constants of calcite, 667.

Pandya, K. C. .. .. *See* Bountra and Pandya.

Pandya, K. C., and Vahidy, Toquir Ahmad — The condensation of aldehydes with malonic acid in the presence of organic bases—Part V. The condensation of anisaldehyde, 134;
Part VI. The condensation of *p*-hydroxybenzaldehyde, 140;
Part VII. The condensation of *m*-hydroxybenzaldehyde, 144.

Paranjpe, M. K. .. .. — The convection and variation of temperature near a hot surface—Part I. The dust-free or dark layer in relation to surface convection, 423;
Part II. Applications of interferometry to the measurements of temperatures and temperature gradients very close to a hot surface, 639.

Parthasarathy, S. .. .. — Dispersion of acoustic velocity in organic liquids, 17.
Ultrasonic velocities in organic liquids—Part V. Some related groups, 59;
Part VI. Related compounds, 213.
The visibility of ultrasonic waves in liquids, 555.

Patel, A. M. .. .. — *See* Acharya and others.

Pisharoty, P. Rama .. — On the visibility of ultrasonic waves, 27.

Prakash, Satya .. .. — On non-spherical nature of colloidal particles in relation to the formation of jelly structure, 332.

Raman, P. K. .. .. — Studies in atmospheric radiation: A discussion of some observations of nocturnal radiation made at Poona and Sinhagad, 243.

Ramaswamy, K. L. .. — Dielectric coefficients of gases and vapours: Substituted methanes and ethane, cyclopropane, ethylene oxide and benzene, 108.
Refractive indices and dispersions of gases and vapours: Substituted methanes and ethane, cyclopropane, ethylene oxide and benzene, 675.

Ram, Gurdas, and Vaidhianathan, V. I. — Uplift pressure and design of weirs with two sheet piles, 147.

Rao, B. Sanjiva .. — *See* Doss and Rao.
See Rao and Rao.

Rao, B. S. Madhava .. — Ring-singularity in Born's unitary theory—I, 355.
A theorem on action functions in Born's field theory, 377.
Semi-vectors in Born's field theory, 436.
Complex representation in Born's field theory, 575.

Rao, B. Sundara Rama .. — Studies on the anisotropy of the optical polarisation field in liquids, IV, V, 64, 72.

Rao, Kittur Subba, and Rao, Basrur Sanjiva — Studies in adsorption on gels—I. A comparative study of selective adsorption from binary mixtures of liquids on gels of silica, alumina and ferric oxide, 562.

Rao, P. Suryaprakasa .. — *See* Seshadri and Rao.

Rao, P. Suryaprakasa, and Seshadri, T. R. — Reactivity of the double bond in coumarins and related α-β unsaturated carbonyl compounds—Part III. Action of mercuric acetate on coumarinic and coumaric acids and esters, 630.

Rao, S. Ramachandra .. — Magnetism and cold-working in metals—Part I. Polycrystals, 37;
II. Single crystals of bismuth, zinc and tin, 186.

Rau, M. A. Govinda .. — The dipole moment and structure of pyrones: 2.6 dimethyl-γ-pyrone, xanthone and coumarin, 687.

Saiyed, I. Z., and Kanga, D. D. — Chemical examination of the fruits of *Solanum xanthocarpum*, 255.

Seshadri, T. R. .. .. — *See* Neelakantam and Seshadri.
See Rao and Seshadri.

Seshadri, T. R., and Rao, P. Suryaprakasa — Geometrical inversion in the acids derived from the coumarins—Part III. *Trans* to *cis*, 157.
Reactivity of the double bond in coumarins and related α-β unsaturated carbonyl compounds—Part II. Reaction of mercury salts on coumarins, 162.

Seth, B. R. .. .. — On the flexure of a hollow shaft—I, 531.

Sharma, S. K. .. .. — *See* Siddiqui and others.

Siddiqui, R. H. .. .. — *See* Siddiqui and others.

Siddiqui, S., Siddiqui, R. H., and Sharma, S. K. — Studies in the conessine series—Part II. Relationship between N-stability and pharmocological action of conessine and iso-conessine, 283.

Subramaniam, K. C. .. — The diamagnetism of some metallic halides, 404.

Swamy, S. Rama .. — The structure of thin metallic films, 656.

Vahidy, Toquir Ahmad .. — *See* Pandya and Vahidy.

Vaidhianathan, V. I. .. — *See* Ram and Vaidhianathan.
See Luthra and Vaidhianathan.

Venkateswaran, C. S. .. — Polarisation of Raman lines in some inorganic acids, 174.
The Raman spectra of sulphur and phosphorus—Part I. Polarisation and molecular structure, 345; Part II. Lattice oscillations, 414.

Wheeler, T. S. .. .. — On the theory of liquids—Part VI. The rate of reactions in liquids, 291;
Part VII. Diffusion and vapour pressure phenomena, 298.
See Nabar and Wheeler.

SUBJECT INDEX.

Acoustic velocity, dispersion, in organic liquids (Parthasarathy), 17.

Adsorption on gels, studies, I (Rao and Rao), 562.

Aldehydes, condensation, with malonic acid in the presence of organic bases, V, VI, VII (Pandya and Vahidy), 134, 140, 144.

Atmospheric radiation, studies (Raman), 243.

β-decay, Fermi's theory (Gora), 551.

Born's field theory, a theorem on action functions (Rao), 377.

Born's field theory, complex representation (Rao), 575.

Born's field theory, semi-vectors (Rao), 437.

Born's unitary theory, ring-singularity, I (Rao), 355.

Colloidal particles, non-spherical nature, in relation to the formation of jelly structure (Prakash), 332.

Colloids, study, importance of dialysis, III (Mankodi and others), 480.

Colloids, study, importance of dialysis, IV (Joshi and others), 590.

Conductivity and cataphoretic speed measurements of benzopurpurin 4B, Congo red and sky blue F.F. (Acharya and others), 503.

Conessine series, studies, II (Siddiqui and others), 283.

Congruence, the number of solutions, in two variables (Chowla), 654.

Cotton flowers, pigments, III (Neelakantam and Seshadri), 54.

Coumarins and related α-β unsaturated carbonyl compounds, reactivity of the double bond, II, III (Seshadri and Rao), 162, 630.

Diamagnetism of some metallic halides (Subramaniam), 404.

Dielectric coefficients of gases and vapours (Ramaswamy), 108.

Diffraction of light by high frequency sound waves (Nath), 222.

Diffraction, X-ray, and electrolytic dissociation, I (Krishnan), 661.

Dipole moment and structure of pyrones (Rau), 687.

Flexure of a hollow shaft, I (Seth), 531.

Foodstuffs, vegetable, acid content, II (Bountra and Pandya), 452.

Functions, holomorphic, maximum modulus curves (Iyer), 314.

Gels, condition of sparingly soluble substances, I (Khanolkar and others), 468.

Geometrical inversion in the acids derived from coumarins, III (Seshadri and Rao), 157.

Heavy water, electrolytic preparation, relative efficiencies of the multistage and one-stage process (Chiplonkar), 463.

Hot surface, near, convection and variation of temperature, I, II (Paranjpe), 423, 639.

Kinetics of heterogeneous organic reactions (II) (Nabar and Wheeler), 91.

Latitude, variation, at Dehra Dūn (Gulatee), 383.

Lattice-theory of alkaline earth carbonates, I, II, III, IV (Oke), 1, 514, 525, 667.

Light, neutrino theory, II (Born and Nath), 611.
Liquids, theory, VI, VII (Wheeler), 291, 298.
Magnetic anisotropy of naturally occurring substances (Nilakantan), 542.
Magnetic anisotropy of rhombic sulphur (Nilakantan), 419.
Magnetism and cold-working in metals, I, II (Rao), 37, 186.
Metallic films, thin, the structure (Swamy), 656.
Numbers, theory, on a relation between two conjectures (Chowla), 652.
Oils, some Indian, optical investigation, I, II, III (Jogarao), 327, 459, 621.
Organo-metalloid compounds, I, II (Niyogy), 303, 309.
Polarisation field in liquids, optical, anisotropy, studies, IV, V (Rao), 64, 72.
Powers, on sums (Chowla), 170.
Powers, on sums (Gupta), 571.
Primes, decompositions into cubes, II (Gupta), 216.
Raman effect in dibasic acids in crystalline state (Anand), 603.
Raman lines, polarisation, in some organic acids (Venkateswaran), 174.
Raman spectra of cyclopropane and ethylene oxide (Ananthakrishnan), 82.
Raman spectra of some boron compounds (Ananthakrishnan), 74.
Raman spectra of sulphur and phosphorus, I, II (Venkateswaran), 345, 414.
Raman spectra of tri-methyl-amine and some compounds of hydroxylamine and hydrazine (Ananthakrishnan), 204.
Ramanujan, Conjecture (Gupta), 625.
Refractive indices and dispersions of gases and vapours (Ramaswamy), 675.
Solanum xanthocarpum, fruits, chemical examination (Saiyed and Kanga), 255.
Solutions, ageing of surfaces, I (Doss and Rao), 11.
Solutions, ageing of surfaces, II (Doss), 97.
Solutions, collision frequency (Doss), 23.
Ultrasonic velocities in organic liquids, V, VI (Parthasarathy), 59, 213.
Ultrasonic waves and its periodic variations, visibility (Nath), 262.
Ultrasonic waves in liquids, the visibility (Parthasarathy), 555.
Ultrasonic waves, on the visibility (Pisharoty), 27.
Waring's problem, note (Chowla), 173.
Waring's problem, Pillai's exact formulæ for the number $g(n)$ (Chowla), 261.
Water surface, distribution of temperature and vapour pressure in the neighbourhood (Gupte), 275.
Weirs, design, uplift pressure, with two sheet piles (Ram and Vaidhianathan), 147.
Weirs, under, uplift pressures, with three sheet piles (Luthra and Vaidhianathan), 491.
